

Presented by  HERBALIFE.

Dear LA Galaxy Orange County families,

We are thrilled to start this unique partnership with your club and community.

Our goal is to be the best professional soccer club in North America. We constantly work towards creating the standard for competitive success on the field, while improving our relationship with our fans and neighbors in the local community.

The Alliance Club program allows us to uniquely engage with a limited number of local youth soccer clubs to develop soccer talent and well-rounded athletes who are active in their communities. This type of partnership only works when there is teamwork and dialogue between our organizations as we strive to enhance your club as much as you will enhance ours. These partnerships are long term working relationships dedicated to the overall sustainable health of your club and we are committed to your future.

We hope to see LA Galaxy Orange County become the club of choice for players and parents in the local community. The primary focus is on player development for all ages and all skill levels. We expect your players to strive to be the best they can be on and off the field, therefore our staff will support LA Galaxy Orange County coaches to provide the best atmosphere possible to achieve these goals. Understanding the importance you place on community outreach, there will be exciting opportunities to showcase these ties to the community with our LA Galaxy Foundation as an additional asset when needed.

We will collaborate to provide more touch points and a new level of engagement between our club and yours.

We look forward to working together. Welcome to the LA Galaxy family.
